Subject: Village "Concerns"

Hello Cpl. Slaney,

My deputy mayor is a retired CBSA employee with a lot of spare time and has been fielding "complaints" from residents. He has lived here for his whole career and married locally as well. Obviously, he feels he is an expert in these matters legally. He has compiled this list and is suggesting an information sheet for residents. Actually, that part I kind of agree with. Couldn't hurt. The courier question you already answered. A lot of this is second or third party, I'm sure. I was going to suggest someone might attend our council meeting just to bring everyone up to speed but now that I've received this letter, I'm not sure. Might turn into an all nighter!

I'm supposed to have a delegation of angry residents who want my head that night as well so maybe I could use some uniformed protection...(joking?)

When you read the list, "we" is just Scott. Is that a "Royal We"? The first I heard of or saw the list was just this morning.

If you want to speak with Scott directly here is his contact information.
Scott MacCumber, [REDACTED]

Thanks for your assistance,

Jim Willett
